

DANIEL RODRIGUEZ Bogotá, Colombia (Open to Remote/Hybrid) | +573144508230 | danielst.data@gmail.com | BUSINESS & DATA ANALYST |

<https://www.linkedin.com/in/daniel-steven-rodriguez-sandoval/> | US & Colombian citizen - No US work visa sponsorship required

PROFESSIONAL SUMMARY Business & Data Analyst with international experience (France, Colombia) in B2B partnerships and operational analytics. Proficient in designing AI-integrated workflows and turning complex data into pricing, margin, and growth decisions using SQL, Python, and Tableau. Experienced in collaborating with distributed teams across European and American time zones in remote and hybrid environments.

TECHNICAL SKILLS

- **Generative AI & Automation:** n8n, Make, OpenAI API, Anthropic (Claude), Google Vertex AI, Prompt Engineering.
- **Data Analysis & Programming:** SQL, Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn), Excel (Advanced, Power Query), Google Sheets (Advanced).
- **Machine Learning & NLP:** XGBoost, Random Forest, Logistic Regression, Deep Learning (TensorFlow, Keras), BERT, Sentiment Analysis.
- **Visualization & BI:** Tableau, Power BI, Looker Studio.
- **Cloud & Infrastructure:** Google Cloud Platform (BigQuery), ETL Pipelines, API Integration, Git, GitHub.
- **Remote Collaboration:** Jira, Confluence, Notion.
- **Languages:** English (Native/Fluent), Spanish (Native/Fluent), French (Intermediate/B1), Portuguese (Intermediate/B1).

PROFESSIONAL EXPERIENCE

BACK MARKET | Paris, France **Strategic Partnerships Management Intern (B2B)** | Jul 2025 – Dec 2025

- **Revenue Analysis:** Built SQL-based pricing models and dashboards to monitor margin performance for a portfolio generating €200K+ weekly GMV; identified specific pricing gaps used by management to renegotiate tender offers.
- **Process Automation:** Reduced weekly reporting time by ~8 hours by automating data retrieval from the central data warehouse into Looker dashboards, increasing visibility from 8 to 20+ Key Performance Indicators (KPIs).
- **Market Expansion:** Executed a pan-European market mapping strategy across 5 countries (UK, DE, IT, FR, ES); identified and qualified 50+ prospective underwriters, contributing to a pipeline projected at €240K annual GMV.
- **Cross-Functional Coordination:** Coordinated the technical integration of a high-value partner by aligning Product, Tech, and Business stakeholders across asynchronous workflows, ensuring on-time delivery despite conflicting time zones.
- **Data Pipeline Optimization:** Collaborated with engineering teams to refine ETL processes for partner data ingestion, improving data accuracy and reducing manual cleaning errors.

UNIVERSIDAD DE LA SABANA | Bogotá, Colombia **Strategic Consulting Lead – Consultorio de Servicio** | Jan 2023 – Jun 2024

- **SME Consulting:** Advised 50+ SMEs on digitalization, delivering strategic roadmaps that improved client operations.
- **Training & Development:** Designed and delivered 10+ in-person and virtual training sessions on data literacy and automation tools to small business owners.
- **Performance Tracking:** Integrated AI-based insights into client assessments, helping local businesses identify growth segments based on historical sales data.

Teaching Assistant - Strategic Marketing & International Financial Markets | Jan 2023 – Jun 2024

- **Curriculum Development:** Built 3 analytics modules and dashboards, increasing student pass rates and data proficiency.
- **Student Engagement:** Managed academic support for a cohort of 60+ students, utilizing digital tools to track progress and provide feedback.

KEY AI & DATA PROJECTS

Predictive NLP Financial Pipeline (M.Sc. Thesis) | Python, Sentiment Analysis, ML

- **AI System Architecture:** Engineered an end-to-end Machine Learning pipeline utilizing Natural Language Processing (NLP) to quantify political bias in financial news (GNews API) and retail sentiment (Reddit API).
- **Signal Detection:** Trained Logistic Regression and Random Forest models to isolate "Reputational Prior" features, demonstrating a statistically significant predictive lift (+2.3%) over technical baselines.
- **Market Insight:** Proved that "Retail Sentiment" is a statistically significant predictor of short-term price volatility, outperforming professional news sentiment by a factor of 50.

TikTok Content Moderation System (Google Capstone) | Python, Scikit-learn, XGBoost

- **Classification Model:** Developed a machine learning classification model (Random Forest & XGBoost) to predict whether video content contained "claims" or "opinions" with 99%+ recall, aiming to automate the prioritization of user reports.
- **Operational Efficiency:** Designed the model to reduce manual review backlogs by flagging high-probability claim videos for expedited human moderation.
- **Hypothesis Testing:** Conducted rigorous Exploratory Data Analysis (EDA) and Chi-squared tests to identify key engagement variables driving video status.

EDUCATION

M.Sc. Data Analytics for Business | KEDGE Business School, Bordeaux, France | Sep 2024 – Apr 2026 (Expected)

- **Thesis:** "AI-Driven Analysis of Political Bias in Financial Media" (Defending Feb 2026).
- **Awards:** Colfuturo Scholar (Merit-based selection for academic excellence); Kedge Academic Scholarship (€5K grant).
- **Status:** All coursework completed; pending final thesis defense.

Dual Bachelor's Degree Program | Universidad de La Sabana, Chia, Colombia

- **Bachelor of Business Administration** | Degree Expected: May 2026
- **Bachelor of International Business Administration** | Degree Expected: May 2026
- **Honors:** Full Academic Excellence Scholarship (Top 1% of cohort); 3x Distinguished Student Award.
- **Note:** Undergraduate coursework fully completed as of Jun 2024; degrees to be conferred concurrently with Master's graduation.

CERTIFICATIONS & TRAINING

- **Google Advanced Data Analytics Professional Certificate:** Python, Regression Analysis, Machine Learning (2024).
- **Google Business Intelligence Professional Certificate:** Advanced Data Modeling, ETL Pipelines, BigQuery, Enterprise Dashboards (2024).
- **Machine Learning for Trading (NY Institute of Finance & Google Cloud):** Deep Learning, TensorFlow, Keras, Time-Series Forecasting (2024).
- **Natural Language Processing on Google Cloud:** TensorFlow, BERT, Sentiment Analysis (2024).
- **Azure AI Fundamentals (AI-900):** Artificial Intelligence Workloads & Cloud Strategy (2024).
- **Professional Scrum Master™ I (PSM I):** Scrum.org – Agile Project Management (2024).
- **IBM Data Science Specialization:** Python, SQL, and AI Development (2024).
