Revenue Operations · Applied AI · Business Systems

EXPERIENCE

Gladly · Revenue Operations Analyst May 2026 – Present

- Refined and validated account-prioritization models, documented their logic and communicated tradeoffs to Sales and RevOps stakeholders.
- Developed territory and capacity analysis used by sales leaders to inform account allocation and outbound planning.
- Built and iterated Tableau and Apollo reporting; investigated source data and refresh behavior to improve reporting consistency.
- Assessed enrichment and data-governance requirements, configured Salesforce–Marketo campaign workflows, and supported integration planning and QA across teams.

Back Market · Paris, France · Strategic Partnerships Management Intern (B2B) Jul–Dec 2025

- Analyzed SQL pricing models and partner dashboards to identify pricing gaps and inform B2B tender discussions.
- Developed reporting workflows and KPI dashboards to support commercial and operational decisions.
- Researched and qualified prospective underwriting partners across European markets.
- Coordinated partner integration across Product, Technology and Business; collaborated with engineering on data workflows.

Universidad de La Sabana · Colombia · Strategic Consulting Lead, Consultorio de Servicio Jan 2023 – Jun 2024

- Developed SME digitalization roadmaps around business needs and practical adoption of digital tools.
- Designed and led data-literacy workshops for small-business owners, connecting analysis with operational decisions.

Universidad de La Sabana · Colombia · Teaching Assistant – Strategic Marketing & International Financial Markets Jan 2023 – Jun 2024

- Created analytical teaching materials and interactive dashboards; supported student progress tracking.

SELECTED PROJECTS

Valrun · Flagship personal project · Economic underwriting for AI-agent work

- Evaluates AI-agent work before execution: known costs, assumptions and unknowns inform deterministic decisions, with provenance, freshness and auditable receipts.
- Originated Valrun and continue to direct the product: define the product thesis, use cases, economic rules and safety boundaries; shape architecture and integrations, review behavior, and iterate implementation with AI development agents.
- Exposes evidence through REST, OpenAPI and read-only MCP interfaces, with explicit boundaries on execution and payments.

VeedurlA · Civic data / Colombia

- Organizes Colombian procurement and legislative data for review, with explanatory priority signals and official sources; signals do not establish wrongdoing.

EDUCATION & RESEARCH

MSc Data Analytics for Business · KEDGE Business School · Bordeaux, France 2026

Business Administration · Universidad de La Sabana · Chía, Colombia May 2026

International Business Administration · Universidad de La Sabana · Chía, Colombia May 2026

AI-Driven Analysis of Political Bias in Financial Media · MSc thesis

Used NLP to analyze bias and sentiment across financial news and Reddit, with comparative models and time-aware validation; best AUC ~0.523 vs 0.500 baseline. 2nd place — “Mon mémoire à KEDGE en 180 secondes”.

SELECTED LEARNING / CREDENTIALS

IBM AI Engineering Professional Certificate (2026) · IBM Generative AI Engineering Professional Certificate (2026) · Google Business Intelligence · professional certificate (2024) · MCP: Advanced Topics (Anthropic) · course completion (2026) · Microsoft Certified: Azure AI Fundamentals (2025) · Advanced Data Visualization with Tableau · course completion (2025) · Natural Language Processing on Google Cloud · course completion (2024)

Practice & tools: Business analysis · Workflow design · Implementation & QA · Salesforce · Marketo · Tableau · Snowflake · Apollo · SQL

Specializations · focused study: Generative AI · AI Engineering · LLMs & Transformers · RAG & LangChain · Deep Learning · Business Intelligence
